A Timeline of Events in Electromagnetism

.

HERTZ, Heinrich Rudolf (1957)

Among you Cartesians all is done by impulsion : with the Newtonians it is done by an attraction of which we know the cause no better.

Electric Waves: Being Researches on the Propagation of Electric Action with ... : Heinrich Hertz , Heinrich Rudolph Hertz, Daniel Evan Jones : Free Download, Borrow, and Streaming : Internet Archive

But scientific accuracy requires of us that we should in no wise confuse the simple and homely figure, as it is presented to us by nature, with the gay garment which we use to clothe it.

A Timeline of Events in Electromagnetism

He also produced important work on the study of friction. With you it is the pressure of the moon which causes the tides of the sea; in England it is the sea which gravitates towards the moon. Description: xv, 278 pages : illustrations ; 22 cm Other Titles: Untersuchungen über die Ausbreitung der elektrischen Kraft.

A Timeline of Events in Electromagnetism

Human fascination with electromagnetism, the interaction of electric currents and magnetic fields, dates back to the dawn of time with the human observation of lightning and other unexplainable occurrences, such as electric fish and eels. .

A Timeline of Events in Electromagnetism

Humans knew there was a phenomenon, but it remained shrouded in mysticism until the 1600s when scientists began digging deeper into theory. Provenance: William Henry Bragg 1862-1942 and his son William Lawrence Bragg 1890-1971 , physicists, fellow Nobel Laureates, the founders of X-ray crystallography the father's signature on title, the son's bookplate. Half-title, line block text illustrations.

Electric waves (1893 edition)

Jones ; with a preface by Lord Kelvin. The compass used a lodestone, a magnetic oxide, to indicate true north.
