Young mothers push for changes in College of Nursing

Lyndsy Miller Several students in the College of Nursing program have shared concerns over balancing course demands and family life and are requesting more accommodations for young mothers through the program. Approaches such as peer education and peer support used in reproductive health should not be considered neutral, taken for granted processes, but may be complex and more nuanced. And I want to not intrude on their imaginative world where I impose my adult views on their experience.

Young mothers push for changes in College of Nursing

Although some of these ideas are totally unrealistic in my opinion making corn cob toys and the indoor sandbox come to mind, I loved this book for the ideas and approach to raising outdoors-focused, healthy, and hearty children. I think I will be passing this one on to someone who could use it more than I. Conflict of interest The authors declare that they have no conflict of interest.

‘Other Girls’: A Qualitative Exploration of Teenage Mothers’ Views on Teen Pregnancy in Contemporaries

LLL Leaders and support people should have a plan to bust these myths with breastfeeding parents before their baby arrives or soon after birth. She also wrote the book at a time in her life when, at least it sounded like, all of her children were grown up and out of the house. She even includes a few recipes and loads of resources for crafts, children's books, and more.

Supporting Young Mothers: Boost Their Confidence for Successful Breastfeeding

So much good advice about playing outside and using imagination, too. I didn't agree with her on everything, for example, bedtime snacks and play spaces. Focus on short-term goals Thinking about breastfeeding into toddlerhood while holding a newborn can feel overwhelming for nursing parents of any age.
