## The Literature Review

Rule 2: Search and Re-search the Literature After having chosen your topic and audience, start by checking the literature and downloading relevant papers. Closed systems characteristically have boundaries that are impermeable and that do not allow the exchange of matter, information, or energy with the direct environment. Increase in Communication Platform Communication platforms offer a swift, easy way of disseminating messages across to target audience; but the huddles to choose the right communication channels for clients could be painstaking.

## Literature Review On Public Relations

Crises management is a special field and a specific area expertise found within public relations practice. One of the most important aspects of a successful search is the search string.

## Public Relations Review

Most scholars have tried to capture the essence of PR by keeping a record of the different activities and processes that are involved in the practice of Public Relations.

## Integrating identity, strategy and communications for trust, loyalty and commitment

These boundaries are present between the interfaces of both organization and its surroundings.
