**Firefly Summer: A Novel: Binchy, Maeve: 9780440204190: localize-img.justmote.me: Books**

A book of changes in four sisters' lives. The orchards that the Ferns had asked their gardeners to plant all those years ago still grew wild and plentiful.

**Firefly Summer by Nan Rossiter**

This seems incredible now but I suppose it is set in the sixties when health and safety hadn't been invented.

**Firefly Summer by Maeve Binchy**

This book was excruciatingly slow in the beginning, quite interesting and fun in the middle, and then quite abrupt and melodramatic at the end. He sighed and went down to the pub. Father Hogan thought Mountfern was a warm, kind place to live, and though it didn't perhaps offer as much of a challenge as he had dreamed about in the seminary, he followed his canon's belief that there were souls to be saved everywhere, and that running a concert for the people of this place might have equal value in the great scheme of things to working in the missions or running a boys' club for delinquents in a tough city parish.

**Firefly Summer by Nan Rossiter**

Binchy's true strength is dialogue and human relationships - she has a unique understanding of women and their friendships.
