Population of Canada

Other factors included political changes, which led to an increased willingness to acknowledge Indigenous ancestry on the part of and the people themselves.

Urbanization In The Late 19th Century

Up to this time, Ottawa preferred settlers from the British Isles, the United States, and Western Europe. As an approach to urban planning, it encompasses principles such as traditional neighborhood design and transit-oriented development. Some rural areas enjoyed growth spurts in the post-WWII period.

Urbanization In The Late 19th Century

Unlike the inefficient steam engine, which took a long time to warm up, the horse was also a highly effective user of energy. Married couples began to limit their childbearing; in Ontario, declining marital fertility has been linked to urban development and land availability. Urbanization and rural flight Urbanization is the process of a population shift from rural areas to cities.

Population of Canada

Barely had the immediate post-war exodus tapered off in 1953 when new Cold War migrations got underway. For example, city governments often use political boundaries to delineate what counts as a city. Living conditions during the Industrial Revolution varied from the splendor of the homes of the wealthy to the squalor of the workers.
