Federal Offshore Lands

Covers 12-month periods ending March 31, June 30, September 30, and December 31.

Stats & Facts

Returns filed reflect income earned in the year preceding the filing year. Gas production in Canadian Lake Erie waters dates back to 1913; more than 2000 wells have been drilled to the Clinton Sand, up to a few miles from the US side of the lake; the same formation produces gas from many onshore wells on the US side, but there are no wells in the US portion of the lake. Government agencies are required to assess and implement corrective actions needed to meet environmental, repair and maintenance issues before a property can be disposed, as well as screening the property for other federal uses.

Oil and Gas Statistics

AHTS vessels Anchor Handling Towing Supply account for over 50% of the global offshore support vessels which currently operate. Treasury from oil and gas lease sales because a good portion of its work relies upon U. Custody To have custody of a prisoner, a state or the Federal Bureau of Prisons BOP must physically hold that person in one of its facilities.

Oil and Gas Statistics

While progress has been made on many fronts, including significant progress with real property data reliability and managing the condition of facilities, agencies face long-standing problems with overreliance on leasing, excess and underutilized property, and protection of federal facilities. Shifting shorelines in the vicinity of oil fields have been a thorny issue.

Offshore Statistics
