## Jishou Akuyaku Reijou na Konyakusha no Kansatsu Kiroku (Title)

Making the already suspenseful roller coaster ride that more enjoyable. If your a fan of Psychological thrillers such as Death note or Liar game, Kaiji is a must watch for you. It's Madhouse, it should go without saying that they always deliver.

### Kai Toshiki/Sendou Aichi

As I said before if you enjoyed Death note or Liar game or any Psychological thriller show.

### Gyakkyou Burai Kaiji: Hakairoku

So what exactly is Kai Toshiki then, if he can no longer die? Kaiji 2 became just as addicting as gambling itself as I found myself marathoning it without stop. Cursed to eternally guard Aichi's resting place on the moon with little chance of relief, he clings to what is left of his humanity with a fragile thread. In fact, I would say this elevates the show more than hindering it.

### KOKUSAI BUTOKUKAI

The psychological element is still there but it's safe to say that season 2 leans more towards who can cheat the best than actual strategy.

### Gyakkyou Burai Kaiji: Hakairoku

Season 1 was just amazing, keeps you thinking and surprises you with the twisted outcomes. He's also slightly developed as well, as his methods for winning become more cutthroat than from season 1.

### Kai Toshiki/Sendou Aichi

We ALL unexpectedly get THE FEELS! A point even brought up by a character later on. The Vanguard of the Royal Paladins, Sendou Aichi, seeks the aid of the Dragon Empire.
