There are few reliable sources for the details of Lalon's early life as he was reticent in revealing his past. He appropriated various philosophical positions emanating from hindu, muslim,jainist, buddhist and traditions, developing them into a coherent discourse without falling into eclecticism or syncretism.

Fazlul Huq was a very well-known politician who was famous for his leadership qualities. The confusion related to Fakir Lalon Shah and his philosophy surfaced after a few scholars, NGOs and government institutions such as Lalon Academy Complex and pseudo Bauls started promoting different interpretations of Lalon's verses as well as organising programmes on Bauls with the primary objective of drawing foreign funds. The mystic songs of Fakir Lalon Shah reverberate at his den on the occasion of a five-day memorial festival dedicated to the legendary bard at Cheuria in Kushtia.
