Cam Jansen: The Mystery of the Television Dog by David A. Adler

This is another book that I have been reading with the children in my class during our rest time. The man holds the dog for ransom.

Cam Jansen and the Mystery of the Television Dog

Cam has a photographic memory, which comes in handy when solving crimes! The Cam Jansen books are perfect for young readers who are making the transition to chapter books, and Cam is a spunky young heroine whom readers have loved for over two decades. Wow, am I glad that they don't follow ME everywhere! For thirty years my parents kept in an otherwise unused room unwanted wedding gifts belonging to a relative who had moved overseas -- an electric fan, dishes with a strange bird pattern, luggage, pots, and lots of cups and glasses. My husband, however, loved these books as a kid and said he read every one he could get his hands on when he was younger, so I guess that's at least some proof of their appeal to both sexes.

Cam Jansen: The Mystery of the Television Dog #4

I love mystery novels, and I think the logic in them is great for kids' brains.

Cam Jansen and the mystery of the television dog (Braille book, 1998) [localize-img.justnote.me]

The book maintains a vaguely Scooby-Doo feel, despite being more I'm not sure why I picked up a used copy of this--nostalgia? Extent 58 pages

3rd grade, so I do recommend to kids in that age group. He's been writing the series since 1980 and now writes roughly one volume per year.

CAM Jansen and the Mystery of the Television Dog: 04: Adler, David A: Amazon.sg: Books

In chapter five they got to the man's house that stole poochie and put together a plan that involed tapping on windows when the to twins where tapping on the on the windows while cam swiched the dogs poochie was smart enough to grab a enlovope that had informaion and proof thatthe guy stole poochie when the guy notice that they swiched the dog he whent back to the bookstore. He thouht that they had no proof cam had proof. Cam Jansen: The Mystery of the Television Dog by David A. Adler

Cam Jansen, about 10 years old, uses her photographic memory to solve mysteries.

David A. Adler

The reason I gave this four stars is the writing is quite stiff in some places and doesn't really flow, and I found at least one flaw in the logic. They were finding Poochie in the story.
