## A step forward to the joint management of the South China Sea fisheries resources: Joint works on catches, management measures and conservation issues

From a purely economic point of view, the Japanese government is seeking to take advantage of emerging economic trends in these three subregions to capture new sources of demand growth and production gains.

### Leaving (north

Connectivity projects in the Indo-Pacific with significant Japanese government financing and planning input The original planning and conceptualization of many of these projects, and the economic logic driving them, predates the Chinese government's announcement of the Asian Infrastructure Investment Bank AIIB and the Belt and Road Initiative BRI. They emphasized the need for denuclearization of the Korean Peninsula and called upon concerned parties to utilize the upcoming ASEAN Regional Forum as an opportunity to resume the Six-Party Talks towards a peaceful resolution of the nuclear issue. Every month, they have to produce 600 pieces.

### Exclusive economic zone

Canberra, Australia: Maritime Security Workshop, 24 Sep 2007.

### Leaving (north

At the meeting, SEAFDEC would present on the result of attitude and satisfaction on co-management measure of close season including the fish catch logbook that were collected from last trip in Nam Oon Dam. Excluding all disputed waters, has an undisputed exclusive economic zone of 417,663 km<sup>2</sup> 161,261 sq mi.
