Millennial Masculinity: Men in Contemporary American Cinema. Indeed, masculinity is tied into so many other categories—gender at large; the practices and politics of representation; myriad cultural and historical contexts; questions of sexuality, psychology, anthropology, and sociology; and more—that efforts to limit the scope of masculinity studies would invariably close off essential contexts.

Corralled by women editors, male scholars take on masculinity with resonant works on sexuality, genre, and ethnicity. Work in the subject has subsequently illuminated virtually all areas of cinema and media scholarship. The main focus is Hollywood, but the mostly British contributors accordingly give space to British and, in one chapter, Indian cinema as well.
