### Majority of parents worried schools are changing too quickly, says survey

Our main features are also exclusive articles responding to the latest education news, maybe an insight from an expert into a policy announcement or response to an education think tank report or a white paper. Violence against women during COVID-19 outbreak.

### Trabalhos de conferências: Educating Special Classes of Persons 1390

These issues need to be addressed in future research in order to improve awareness of CP. We have not changed any of the guidance from the update on 10 May. Results The nine local parents or child Facebook groups consisted of eight private groups and one public group and between them contained a total of 1,775,469 subjects.

### Have parents' views on using community pharmacy services for children in the UK changed over the past ten years?

The researcher of this work performed a content analysis on the material. We thought it would be helpful to explain how we tier our latest education news content and how you can get involved and understand how you can read the latest daily Further Education news and how we structure our FE Week of content: Main Features Our main features are exclusive and are thought leadership articles and blue sky thinking with experts writing peer to peer news articles about the future of education and the future of work. However, it is worth noting that during the current COVID-19 pandemic, public perception of CP has improved, especially in relation to self-care.

### Majority of parents worried schools are changing too quickly, says survey

However, only a small number of parents were included in the study, hence the findings might not be generalisable.

### Trabalhos de conferências: Educating Special Classes of Persons 1390

It is important to understand these perceptions to enable government and decision-makers to develop solutions to address the barriers that affect parents.

### **Barriers to distance learning during the COVID**

They were then entered into NVivo 11 software QSR International, USA.

### **Resources**

What if you don't have enough knowledge for that? Estimating the impact of school closure on social mixing behaviour and the transmission of close contact infections in nine European countries. Some parents were dissatisfied with distance learning and felt that this kind of learning should not substitute for face-to-face education despite the benefits of distance learning, such as saving time and effort for school students. According to posts and comments made on Facebook, these barriers were personal, technical, logistical, and financial.

### **Barriers to distance learning during the COVID**

Many of the posts made by parents indicated that the introduction of distance learning was not fair, and that their children were not prepared to use distance learning as the main medium of education. Stanford University Press; Palo Alto, California, USA: 2008.
