The Extraverted Personality and Stuttering

Too many people seem to think that people who stammer are slow, socially lazy and that the stammer is the fault of the person who stammers and not something which runs in families. Boys are more likely to continue stuttering than girls.

Perceptions of Stereotypes of People Who Stutter in Hispanic by Ruth Crutchfield and Xiaohui Wang

I learned that I was different, not as good in every way that mattered.

Attitude and personality characteristics of older stutterers

You may want to hide your stuttering. You should know by now that the harder you fight your stutter the worse it gets.

Stuttering

For awhile, I thought I had a stroke that night I described. Menzies, Ann Packman, Mark Onslow. But thank you all for listening to me .:

Stuttering, Social Phobia, Mental Illness, and Personality Disorders

For example, you may not want to talk on the phone if that makes you stutter more.

Acknowledgment and severity of stuttering as factors influencing nonstutterers' perceptions of stutterers

The subjects who did only speech therapy had no change in social phobia.

Attitude and personality characteristics of older stutterers

Therefore a study of these factors can help inform speech therapy to make it more effective. Should stutterers seek treatment from psychologists or from speech-language pathologists? My anxiety grew worse, and I slowly over 2 years got more social isolated and now I have social PHOBIA.
