Watershed approach to water quality management

When I was much younger, I would show up at the office about 7:00 a. It proposed more comprehensive assessments of waterways, detailed cleanup plans, and timetables for implementation. Land use and population change are also important water system stressors.

Improving Water Quality: States' Perspectives on the Federal Water Pollution Control Act

Chairman and members of the subcommittee, let me thank you again for granting me this opportunity to briefly comment on a few of Oregon's concerns and issues relating to the Clean Water Act. Instead of pointing to smoke stacks and discharge pipes, the citizens of this country are beginning to appreciate first of all, that they like clean water and secondly, they might have some responsibility for helping us achieve that.

What is Water Quality Trading?

The TMDL itself is a number. We know that the new Administration is sensitive to the unfunded mandate implications of the TMDL regulation and we hope we can work with EPA and the Congress to address our concerns. In the first year of the study the League learned about the laws and regulation that govern water in Oregon.

Topic: Water Quality

However, a formal enforcement strategy is not contemplated.

What is Water Quality Trading?

Moving farther from the edge of the water, other controls limit harvest and retain canopy and conifers. I would like to welcome everyone to the

first Water Resources and Environment Subcommittee hearing of the 107th Congress. I would now like to recognize my good friend, the distinguished Ranking Member of the Subcommittee, the gentleman from Oregon, Mr.
