## Arms Race

Sharp also adds that when the war supplemental for Iraq and Afghanistan are considered, the US budget is already over the 4% mark. Catalogue Persistent Identifier APA Citation Hattori, Akira.

## Arms Control — Global Issues

Some countries also have a substantial legal or illegal domestic trade in weapons for use by their own citizens, primarily for self-defense, hunting or sporting purposes.

## Military Budgets and Defense Spending

Travis Sharp, , Center for Arms Control and Non-Proliferation, February 26, 2009 Emphasis added See also the , April 15, 2008 from Travis Sharp for additional details. Hellman might be surprised to find that even in such times, there are still serious proposals for pegging military spending to GDP. Indeed, successful diplomacy may help put a limit to the global arms trade — directly or indirectly — especially through the reduction of the very necessity of buying arms to a considerable extent by both state and non-state actors.

## Arms Race

In this respect, strengthening the diplomatic capacity of international organizations especially the United Nations can be an effective means. Furthermore, some key countries continue to use landmines, or support the need for them, despite the problems they often cause for civilians long after conflicts have ended.
