Determinants of gross domestic savings in Uganda: an autoregressive distributed lag (ARDL) approach to cointegration

These are the first Production Sharing Agreements to be signed in line with Section 58 of the Petroleum Exploration, Development and Production Act 2013, the Legal regime under which the Minister for Energy and Mineral Development announced the First Competitive Licensing Round during February 2015. Then we will probably see the trust levels of results at the national tally centre improve.

More information

About one in five respondents 18% favoured the pop-star-turned politician, Bobi Wine whose real name is Kyagulanyi Robert Ssentamu. The outcomes from the model estimation show that in the long run, all variables except Deposit Interest Rate have statistically significant impacts on GDS. Consumption by a household is determined by the income and consumption patterns of their neighbors.

Sanlam Uganda

Maize milling is often done with non-food-grade hammer mills, which continuously create metal chips that are mixed in with the flour. In case of a district, every sub county or municipal division is represented at the district council and that no sub county or division shall be subdivided for purposes of adding part of it to another subcounty or division; b.
