Except for the very young, all immigrants arrive with language skills—in their own language.

Demographic Trends

As in , the solid black line is the median projection. Demographic Drivers of Aging The amount of aging the U.

Population Trends

Immigration and Naturalization Service estimates that net illegal immigration in fact accounts for about 20 to 30 percent of annual net immigrant arrivals Washington Post, 1997. Life Expectancy at Older Ages Remaining male life expectancy for those aged 65 in 2010 equaled 17. Before the

global economic contraction of 2008, when remittances peaked worldwide, remittances constituted at least 19 percent of the Gross Domestic Product GDP of Honduras, 16 percent of El Salvador's, 15 percent of Haiti's, and 10 percent of the GDP of both Nicaragua and Guatemala.

Statistics and Data Sets

Because of the great variety characteristic of Latin American pentecostalism, its political activism and impact defy simple categorization. This hypothesis, however, does not always fit very well with the observed differences across groups.

Demographic Trends

This scenario involves a smaller rise in the age at retirement and would allow some increase in years spent in retirement. Analyses of ethnic differences usually find mortality among Hispanics to be lower than among whites. Of these 23, 21 are Mayan Indian languages, and the other two belong to the Xinca related to the Nahuatl language and Garífuna an Afro-Caribbean indigenous language.
