**NatCen Social Research**

In combined figures for 2012-13, 16% of people questioned in inner London admitted to racial prejudice. This decline is not simply a private matter for individuals and families, but rather a trend with profound implications for our social norms as well as our public institutions.

**Britain 'more Thatcherite now than in the 80s' says survey**

Alison is closely involved with the International Social Survey Programme ISSP , a cross-national study of social attitudes, and is the ESRC-funded UK Co-ordinator for the 2002 to 2012 rounds of the European Social Survey.

**British Social Attitudes Survey: Racism on the Rise**

Spotlight Views on gender roles have become less traditional over the past three decades, including a notable change in attitudes since 2008. Marriage has been transformed on all levels, with the institution now open to same-sex couples and no longer the only socially validated form of sexual relationship. The first 4 chapters of our latest 37th report is now available on our , containing British Social Attitudes reports going back to BSA 28.

**British social attitudes. The 21st report [electronic resource] in SearchWorks catalog**

Sympathy towards benefit claimants has evaporated, along with support for redistributive tax and spend policies, over the past 20 years, with Labour governing during a period of significant hardening of attitudes towards the poor, the annual results of the British Social Attitudes survey reveal.

**British social attitudes : the 9th report (Book, 1992) [localize-img.justmote.me]**

If you are interested in understanding the views and opinions of the British public, and tapping into 30 years of trend data, please get in touch.

London: SAGE Publications Ltd, 2002.

**British Social Attitudes Survey: Racism on the Rise**

On the one hand we are seeing a hardening of attitudes towards welfare reform, whilst on the other there is strong support for investment in health and education.
