

# Characterization of soils in relation to their classification and management for crop production - examples from some areas of the humid tropics /edited by D.J. Greenland.. --

Clarendon Press - World Soil Resources and Food Security (Advances in Soil Science)

Description: -

-

Theater -- Switzerland -- History.

Land capability for agriculture -- Africa, West

Soil management -- Africa, West

Soil fertility -- Africa, West

Soils -- Africa, West

Characterization of soils in relation to their classification and management for crop production - examples from some areas of the humid tropics /edited by D.J. Greenland.. --

-Characterization of soils in relation to their classification and management for crop production - examples from some areas of the humid tropics /edited by D.J. Greenland.. --

Notes: xiv, 446 p., [16] p. of plates : ill. Oxford science publications.

Includes bibliographies and indexes.

This edition was published in 1981

Filesize: 56.710 MB

## An evaluation of the use of DTPA and EDTA as extractants for micronutrients in moderately acid soils

Thus, the amount of clay and SOM in the soil strongly influences the degree of K leaching.

## An evaluation of the use of DTPA and EDTA as extractants for micronutrients in moderately acid soils

Soil Science Society of America Proceedings 31: 203-210. However, at the 524 kg K ha<sup>-1</sup> rate, 38 kg K was unaccounted for by soil and plant K. However, few studies provided specific data to corroborate their presence and explain their genesis under different soil-forming factors.

## Tillage and mulching effects on physical properties of a tropical Alfisol

...

## Characterization of soils in relation to their classification and management for crop production : e...

The fixation of potash in difficultly available forms in soils. .
