Clay, dirt or soil is then filled into the desired height.

## Planning new landscapes: A comparison of the Columbia basin project and the IJsselmeerpolders

Social Impact Assessment SIA has been proposed as an instrument to reduce likely future expenditure by the early identification and resolution of potential issues that could otherwise lead to litigation, delays to approval, costs in the form of managing protest actions, and business lost through reputational harm Vanclay 2012. In addition to completing the dam, work needed was the construction of shipping and discharge sluices at the ends of the dam. Work on Eastern Flevoland resumed in 1954 and the dike was closed on September 13, 1956.

## New Zuiderzee Lands: Planned Settlement in the Netherlands on JSTOR

It is closest to the original concept of the new land being primarily used as agricultural land and it has retained a strong rural character. A further planned element of the Markerwaard was subsequently executed: a 28 km dike between Lelystad and , including two complexes of locks and discharge sluices at either end, was to split the IJsselmeer in two, with the largest portion 1250 km<sup>2</sup> continuing as the IJsselmeer and the smaller lake 700 km<sup>2</sup> being named the.

## Zuiderzee Works

Sabljar, Miestopisni riečnik kraljevinah Dalmacije, Hrvatske i Slavonije, Orts-Lexikon der Königreiche Dalmatien, Kroatien und Slawonien, Agram 1872 , referring to 1866; Pregled političkoga i subdenoga rezieljenja Kraljevinah Hrvatske i Slavonije i uredjenja upravnih obcinah Zagreb 1877 , and analogous publications from 1889 and 1892. Published bi-monthly in February, April, June, August, October, and December. Several years after this was completed, the various plots were distributed among private parties, with priority given to the early pioneers who had been in the polder since the start.
