-The play and place of criticism

Notes: Bibliographical footnotes.

This edition was published in 1967

- The English critic of literature, therefore, must dwell much on **foreign thought**, and with particular heed on any part of it, which, while significant and fruitful in itself, is for any reason specially likely to escape him.
- **Judging** is often spoken of as the critic's one business; but the judgment which almost **insensibly** forms itself in a fair and clear mind, along with **fresh knowledge**, is the valuable one; and thus knowledge, and ever fresh knowledge, must be the critic's great concern for himself.
- Communicating fresh knowledge, and letting his own judgment pass along with it.
