## Retail Trends 2021

This is a very different pattern from 1997 when the gender pay gap was quite equal between the regions of the UK. It will last from October 9—12.

## Impact of the COVID

### Gender Pay Gap: women still short

The median is preferred because using the mean another measure of averages can misrepresent the data due to small numbers of very high earners. Gender pay reporting requirements were first introduced as part of the Equality Act 2010 and came into force in 2017.

### Gender Equality: Gender Pay Gap

Re-localisation Lockdown and the growing number of people working from home has led to a return to local shopping, which we believe will continue beyond the pandemic. Please see to learn more about our global network of member firms.

### Ireland Salary & Recruiting Trends Guide 2020

The cost pressures remain and investments in experience need to ensure that they make sense from a brand perspective, add value to consumers, and deliver a commercial return. This is imperfect, but without individual salary information it is impossible to get a true average. The reinvention of the high street will continue well into 2021 and beyond, particularly as government support measures are withdrawn.
