Scotland's careers strategy: moving forward

Where these countries are in the same geographical proximity they are referred to as regional qualifications frameworks examples include the SADC RQF and the EQF.

The Scottish Education System

For university entrance, the UCAS produces its own for level 3 qualifications and international equivalents, based on grades achieved and the size of the qualification in four size bands.

An overview of the Scottish education system

From a review of the interpretation of learning outcomes it is evident that learning outcomes are understood to be statements that describe mainly three major domains: knowledge learning to know , skills learning to do and competences learning to be. For information on , please see.

Standards framework for nursing and midwifery education

This helps ensure that their progress is on track and that any necessary action is taken to support learning.

Educational attainment

Good careers advice will help to reduce drop-outs from further and higher education courses and training. Celebrating 15 years of the National Framework of Qualifications NFQ View an interactive infographic which charts NFQ development since its inception in 2003.

Standards framework for nursing and midwifery education

Level 6 Level 6 qualifications recognise a specialist high-level knowledge of an area of work or study to enable the use of an individual's own ideas and research in response to complex problems and situations. This article incorporates text from a work. The entitlement framework will provide the opportunities for pupils to access a range of courses with clear progression pathways that engage and interest them and that properly prepare them for life and work in the 21st century.
