Some Neanderthal skeletons exhibit skeletal changes that are consistent with rickets. We need to be able to look at things objectively as well as subjectively. This occurs during the sixth day of creation.

### **Oldest Homo sapiens bones ever found shake foundations of the human story**

It says in the Bible that a thousand years is like a day for the Lord. In studies where a range of dates is obtained, the ones in the right ball park are presented, giving the limits of what is assumed to be the correct age, and the anomalous ones if mentioned at all are explained in terms of mixing of sediments, extra Argon retention, leaching, and other very plausible processes. Many Christians have tried to reconcile the theory of evolution with the Biblical account of the creation and the early history of the earth.
