Theme	Subname	Definition	Example quote
Loss Affecting i.e. Adaptive Strategies	Faith	Adaptive strategies that enabled participants to persevere and succeed in their leadership role	"So it's why my faith, that gives me the resilience to do it. I believe because God put me here for a reason."
	Collective Support		"If not for my coworkers, my friends, or my family, how would I have been able to get through this? They were there for me. They helped me through every step of the way."
	Advocacy (student focused)		"The students for me, definitely. Providing them with the best education that we can and giving them the ability to pursue their dreams and goals and to be successful."
	Advocacy (adult focused)		"I believe in Jesus. As we're growing, I thought No, you can't just rely on any. You've got to find Christ, someone, a living, breathing human being."
Loss Affecting i.e. Disruptive/Reactive Strategies	Avoidance and Denial	Strategies that enabled participants to disengage from or avoid painful issues	I don't think about it [racism]. It affects me [to do] think about that, but, don't live that. It's either me to help others or me to help myself. I just don't want to think about it.
	Defining and Boundaries		I would never make myself vulnerable, ever again, in a workplace... I am being this as a learning experience. Because I have no answer on the way for day any next space.
	Leaving	This is an externally reinforcing reward for leaving	[In supporting quote]
Costs to coping	Self-doubt	This is an internally reinforcing reward for leaving	There are these patterns or behavioral values I'm left to wonder like, What is the cost of... you know, what is the cost of this? What is the cost of this? Like, never do it. I know nothing, something else.
	Recognition with Recognition		Some people don't have to do any of the work... I mean, I'm not saying that they don't deserve to be in the building. [They] may never have to have those kinds of conversations with other people in there... so it's a change there is a very different culture here [that] energy consuming.
