## History

In Nigeria, there would be more than five hundred possible languages. There are more than one hundred ethnic groups in Tanzania. More businesses than ever are doing business in different parts of the world and while the large multinationals only represent a fraction of the global economy, many of the largest and most innovative firms find themselves operating at a global level.

## Africa: Human Geography

All the regions face similar risks to their economic prospects in 2019—20, these include rising debt, fragility, population growth and climate change. Statistical data are difficult to confirm, but Christianity is believed to be as prominent as Islam in Eritrea.

## Middle East and North Africa (MENA)

Continents were not yet divided, and the vegetation and animals were different.

## History

TOURISM CREATES WEALTH AND PROBLEMS One of the main economic activities in East Africa is tourism. Kenya Airways was also facing a battle for survival before the Covid-19 impact, after years of increasing debt and allegations of state corruption.

## Africa: Human Geography

The Great Rift Valley in East Africa is divided into the Western Rift and the Eastern Rift. Southern Africas Cape Floral Region is one of the richest areas for plants in the world. A political boundary is an imaginary line separating one political unit, such as a country or state, from another.

## East Africa

Uganda is about the same size in terms of land area as the US state of Wyoming, but whereas Uganda has an estimated population of more than thirty-two million people, Wyoming has fewer than half a million. HIV and AIDS in Subsaharan Africa As if Subsaharan Africa did not have

enough to work through to achieve stability, it must also cope with high numbers of people infected with HIV and AIDS.
