Eliminating or constraining the Senate filibuster would give unified party governments a better shot at putting their campaign promises into law.

## **Contextual Commentary**

If we could combine these changes with redistricting reform, using impartial citizen commissions to draw district lines as we have seen operate in states like Iowa and California, we might get somewhere. Bribery is the offering of money or gifts in exchange for the person being bribed undertaking one of the acts listed turning a blind eye, providing information, allowing smuggling and so forth. ## **Corruption and Wildlife Trafficking: Three Case Studies Involving Asia**

Our study has important practical implications as its findings indicate that bribery results from a combination of individual, organizational and relationship factors that co-occur and reinforce each other. Part of the problem with DPAs is that the term emphasizes the deferral of prosecution rather than the remedial steps that have been agreed to. The present study not only considers how individual, organizational and relationship factors separately affect corruption, but also how they may do so in combination.
