### What are four factors that affect your food choices?

This dataset will be useful for a broad range of economic analyses of food choices and for understanding the implications of food choices for diet quality. These models help to explain human behaviour and in particular to understand how people make decisions about their health. Individuals may also have reference groups social cliques, such as yuppies to which they would like to belong.

### The Factors That Influence Our Food Choices

They are used to cheap labor and are drawn to products that promise to make life easier and more convenient.

### Individual, Household, and Environmental Factors Affecting Food Choices and Access

In the 2003—2004 ATUS, women working full-time in households at 130 percent or less of the federal poverty level reported 5.

### What are four factors that affect your food choices?

This section focuses on a select few.

### Social, behavioural and other determinants of the choice of diet

They found that people with access only to supermarkets or to supermarkets and grocery stores had the lowest rates of obesity and overweight, while those with access only to convenience stores had the highest rates. Access to affordable and nutritious food—Measuring and understanding food deserts and their consequences: Report to Congress.
