DeWalt Ch. 1

Participant Observation is a central and defining method of research in cultural anthropology, as well as a common feature of qualitative research in other disciplines—sociology, education, health sciences. The translation of everyday experience and knowledge acquisition in the field into the rigorous conduct of participation is rare in the world of qualitative inquiry. This book serves as a basic primer for the beginning researcher and as a useful reference and guide for experienced researchers in many fields who wish to reexamine their own skills and abilities in light of best practices of participant observation.
