Generally all the pupils had positive attitudes towards organic food and health and this had a significant impact on their intention to consume organic food but not on their behaviour. Parmi eux des comédiens, metteurs en scène, dramaturges Heiner Müller, écrivains Christa Wolf, Stefan Heym, Christoph Hein, réalisateurs, scientifiques, mais aussi des politiques, opposants Marianne Birthler, partisans du régime en place Schabowski, des étudiants, un avocat Gregor Gysi, un théologien, et même Markus Wolf, ex-chef du contre-espionnage est-allemand... Au total 26 orateurs. Observers demonstrated this ability when there were potentially helpful trajectory-segmentation cues such as a common origin for all movements Experiment 1 ; when the dot's motions were entirely continuous and unconstrained Experiment 2 ; when sequences were tested against partial sequences as a more stringent test of statistical learning Experiment 3 ; and finally, even when the element trajectories were in fact pairs of trajectories, so that abrupt directional changes in the dot's motion could no longer signal inter-trajectory boundaries Experiment 4.
