### School privatization and choice: A sociopolitical analysis

Although still a bit premature, the studies of John Whitte and his colleagues at the University of Wisconsin show little improvement in the collective academic performance of the voucher students when compared to the performance of low-income students still in the MPS system. Private schools including religious institutions are usually exempt from the mandatory standardized testing that occurs in the public system.

### **School Choice vs. Privatization**

The best things in life are free Support for market-driven school choice plans by the average citizen are motivated, to a large extent, by the glowing promises of reduced educational expenditures.
