Human resource policies and older workers in Japan. Conversely, the association between age and social reciprocity was significantly positive among Chinese Americans as a group, but the association was weaker among Chinese Americans who valued hedonism seeking individual pleasure more. The Cultural Context of Aging: Worldwide Perspectives The Cultural Context of Aging: Worldwide Perspectives Willigen, John Van 1999-03-01 00:00:00 Gerontology PfuD.

### Cultural Context of Aging Book

To the extent that everyone develops across adulthood in ways that are consistent with internalized cultural values, cultures with different values should show different patterns of adult development. Doesn't that make you feel old bring back happy memories? It may be fruitful to look for cultural differences in aging i. Results showed that the well-documented negative association between age and number of peripheral partners over time was only significant for individuals with low or medium levels of interdependence, but not for those with high levels of interdependence.
