Hitler: Profile of a Dictator by Martyn Housden

He also discovered, and used, his powerful ability for public speaking. The First World War Hitler moved to Munich in 1913 and avoided Austrian military service in early 1914 by virtue of being unfit for service. These additional online resources from the U.

Adolf Hitler : Faces of a Dictator

Hitler gave the SA a job in 1933 and it was to wreck the jewish trade. A few months ago, I was approached by a non-profit human rights organization to create a presentation on the mind of a dictator--an especially compelling issue in light of recent uprisings against autocrats in the Middle East and North Africa.

Hitler's Psychological Profile : NPR

Individuals with narcissistic personality disorder have difficulty tolerating criticism or defeat. For some people, this means a greater tendency toward drug and severe painful withdrawal that gets progressively worse over time, leading to malignant dependent behaviors. Scientific American maintains a strict policy of editorial independence in reporting developments in science to our readers.

And those people may be subtly biased, even despite tremendous efforts at objectivity and scientific rigorously. The only way to try to establish something similar to a psychological profile is the analysis of his speeches, his acts and the ideas he conveyed through writing. He failed the examination for the General School of Painting at the Viennese Academy of Fine Arts, partly down to his struggle to capture the human form.

Adolf Hitler: Biography, Facts, Rise To Power & Photos

The personality characteristics described above may have some connection with the existence of a certain degree of psychopathy, given that typical characteristics of this type of subjects are met, but it is also very possible that they are pure propaganda to discredit their figure taking advantage of the stigmas that weighed on people with mental disorders. Basically it forced city folk to head out to the farms to do some labor and vice versa for farmers. I am no phd in psychology but his studies are skewed and won't allow a complete picture of human barbarity.
