### Gemmology

Create a personalised content profile. Gemmology is the science of gem materials, and a specialized offshoot of an older branch of science mineralogy. Create unique jewelry designs using precious gemstones.

### Gemmology

Typically this is measured using a , although it is possible to measure it using a microscope. Absorption and emission spectra 9.

### Basic Gemmology Course

Coloring agents or chromophores show bands in the spectroscope and indicate which element is responsible for the gem's color. It uses an optical microscope—that will be familiar to gemologists—and can support all the standard viewing methods transmitted or reflected light, polarised light.

### Study gemology

Study with the ISG with the confidence that you are getting the very finest in gemology and jewelry appraisal education. Scientists add to gemology's knowledge base by developing new testing techniques and researching new gemstones. Choosing a Diamond Ring, Judging Craftsmanship.
