Management Of Violent Patient

This enables a staff member to take primary prevention steps to stop escalating aggressive behavior. Other sources of information may include mandatory provision of probation reports of clients who may have had a history of violent behavior.

De

Lanza, Rierdan, Forester, and Zeiss conducted a pilot study to assess the efficacy of a violence prevention community meeting VPCM in decreasing the prevalence of workplace violence in an acute in-patient psychiatric setting.

Workplace Aggression: 5 Ways Nurses Can Handle Violent Patients

Differences between emergency department and psychiatric nurses were significant.

5 Steps to Prepare for Patient Violence in Hospitals

Transportation of the injured to medical care must be provided if it is not available on-site or in an employee health service.
