The Gorilla Game: Picking Winners in High Technology by Geoffrey A. Moore

Yes, early investors are sitting on massive profits. The answers are here, in this newly revised edition of the national bestseller The Gorilla Game.

The Gorilla Game: Picking Winners in High Technology by Geoffrey A. Moore

I think I'll just go with a proven winner in TSLA and NIO with maybe a bit of BYD. Future Directions Since the gorilla game heavily relies on the competitive advantage period CAP of the gorilla company, I'd like to try using the market implied competitive advantage period MICAP as a screening parameter.

Note that BYD's symbol is actually BYDDF: BYD belongs to a different company that currently does something else as it is probably beginning to pivot into Chinese EV production. I know but TSLA sells a lot of EVs in China and appeals to the well healed as a status symbol so they have to go in the basket.

The Gorilla Game: An Investor's Guide to Picking Winners in High Technology: Moore, Geoffrey A., Johnson, Paul, Kippola, Tom: localize-img.justmote.me.au: Books

When the dust clears and one company clearly attains leadership in its product category, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. His reasons: The firm's components could well find a place in fast-growing markets for TV set-top boxes and e-appliances.

Owen also founded Rask Media and Rask Education. Accordingly, I think a screening parameter should emphasize revenue growth over margins on Main Street the margins should be screened for.

The gorilla game : an investor's guide to picking winners in high technology (Book, 1998) [localize-img.justmote.me]

Moore and his coauthors put their ideas to the test in the final chapter and pick a portfolio of stocks that they believe have the potential to become winners in the gorilla game. Here you'll find his groundbreaking ideas about tech-nology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consul-tant and highly successful private investor.

The gorilla game : an investor's guide to picking winners in high technology : Moore, Geoffrey A., 1946

How do you find the Yahoo! The book loses some of the crispness by claiming there are gorilla dynamics in the application software niches -- although the strict definition of supporting ecosystem does not seem to apply well there. Fast-forward to COVID-19 and businesses are stuck.
