Structure and Properties of Oriented Polymers by I. Ward

Formation of Interlinked Shish-Kebabs in Injection-Molded Polyethylene under the Coexistence of Lightly Cross-Linked Chain Network and Oscillation Shear Flow. A cluster model for the polymer amorphous state. *Macromolecules* 2020, 53 (6), 2145-2156.

Oriented Polymer

In both the types of microporous membrane manufacturing technologies mentioned above, conventional extrusion molding technologies are applied. Molecular fracture does not occur to the same extent in all polymer fibres and the micromechanisms differ in different types of fibres.

Structure and Properties of Oriented Polymers by Ian M. Ward

Dimensionless groups of quantities E.

Structure and Properties of Oriented Polymers by Ian M. Ward

Depth-profiles of structure in single- and multilayered commercial polymer films using grazing-incidence X-ray diffraction. Chronological development of commercial polymers Bibliography Chapter 3. No attempt has been made to moderate these differences, as they serve to illustrate the diversity of approaches required to give the reader a balanced view of the subject.
