Consider contributing a question to be answered in a future post. When poetry is woven into the fabric of the everyday life of the classroom, it opens a window into a world outside of the classroom; it leads students to see the magic of the everyday, ordinary worlds all around them. An impressive set of international authors offer examples of productive critical literacy practices in and out of schools, address the tensions and gaps between these practices and educational policies, and attempt to forecast the future for critical literacy as a movement in the changing global educational policy landscape.
