

Premises of excellence - how successful companies manage their office

Building Use Studies - Customer Experience is the key to Operational Excellence Success

The screenshot shows the title page of a document titled "Project Management Office – Center of Excellence". Below the title, it says "Overcoming the Improvement Paradox: The PMO – Master of the Craft". It lists the PMO's role as the master project management practitioner having the talent, expertise and experience to:

- Align projects to strategic business goals and objectives – *Results First*
- Assess the state of a project – *Evaluate performance using the Results Model*
- Prescribe corrective actions – *Improve project effectiveness and efficiency*

As Master of the Craft the PMO can:

- Objectively assess and diagnose what needs to be done
- Correctly select and implement the solution
- Effectively and efficiently improve performance

10 Principles that Promote Good Governance

For example, the cost monitoring function, follow-up and reporting on project profitability, monitoring of financial risks, optimization of resource allocation in project portfolio, support in resource acquisition, and solvency of resource conflict are all functions put into place to support operational efficiency in projects.

10 Principles that Promote Good Governance

Available at , accessed 8 May 2008. In the real world, the details of performance management systems are difficult to get right.

Towards defining shopping centres and their management systems

Every time this movie is on cable I watch it.

Good Office Management for Your Small Business

However, many of these minor improvements were before implementation in the project first tested in the research centre.

Towards defining shopping centres and their management systems

Second, everyone must have the knowledge and ability to meet that standard.

What should be the scope of a Business Excellence initiative?

Taking this approach even further, every autumn a field-services organization commits itself to a comprehensive, enterprise-wide calendar for the entire following year. The intention was to purchase something that was well made with enduring quality and value.

Create an Innovation Centre of Excellence

Remain as transparent as possible.
