Electroconvulsive Shock

Amnesic and punishing effects of electroconvulsive shock. I am shocked with several of the comments posted in this website.

New Study Confirms Electroshock (ECT) Causes Brain Damage

A variety of situations can trigger PTSD symptoms: a war veteran can have flashbacks of fierce combat scenes, a terror attack victim can re-experience the horror of an explosion triggered by the sounds of firecrackers, and a victim of childhood abuse can have vivid nightmares well into adulthood. Go reach out and talk to the Victims, the survivors, and their families before dredging up dangerous disproven treatments. The retroactive effect of electroshock on learning.

New Study Confirms Electroshock (ECT) Causes Brain Damage

Long term outcomes even according to Dr. Guess that means ima need more pills smh.

The effect of an electroconvulsive shock on retention of a spatial discrimination or its reversal

They have either lost awareness or they are too apathetic to care anymore. Please also see resources on ectjustice. A third alternative is that the effects of ECS given at post-learning intervals longer than a few seconds were on a non-discriminative conditioned emotional response CER.
