## New Zealand native plants: Conservation

In the miniature valley between the hills of two adjacent vegetable sheep, a tiny bluebell may find protection from the elements. Indications are that puriri could well, and, as it is one of New Zealand's most demanded burning timbers, it might prove suitable as a source of biomass or for charcoal production.

## Plant Profile for *Acaena inermis* 'Purpurea'

However, flowers with similar colours did not attract similar pollinator assemblages. We also thank two anonymous reviewers for their valuable comments. Used to harsh northern hemisphere winters, heather is much more aggressive than many native plants, and its distinctive purple hue has spread quickly—especially in Tongariro National Park.

## 98 Phormium ideas in 2021

Maori burned areas in their hunt for moa, and European settlers torched tussocklands in order to provide grazing for sheep. If our alpine plants did evolve in this way, then one would expect to find closely related species still down in the lowlands. As hydrangea flowers age the colour fades to reveal wonderful antique shades of lime, rose and copper which make a beautiful feature in vases.

## Phormium: New Zealand Flax

Introduced in 1912, by 1921 heather covered 1200 ha of our oldest national park. Send flowers to New Zealand Send Flowers to Auckland, Wellington, Christchurch, Hamilton, Napier, Hastings, Tauranga, Dunedin, Palmerston North, Nelson, Rotorua, New Plymouth, Whangarei, Invercargill, Whanganui, Gisborne. Yet our mountains are only five million years old—a mere blink of the eye in evolutionary time.

## Hydrangea at Wairere Nursery

One often sees the carcasses of small insects caught in their leaves—a grim clue as to how these plants get their nitrogen and phosphorus.
