### John Sandford Prey Series

In this case a mentally deranged man titus welliver takes his former psychiatrist sheila kelley and her two children hostage in revenge for the torment

he feels he suffered while being incarcerated. Remarkably, Ben described in intimate detail his manipulations and scheming, his perverse fantasies and desires in numerous journals and diaries, providing a unique insight into the mind of a psychopathic personality. Jack cannot understand how the swarm got inside the airtight building, why Charley would have disabled the facility's communications, or why Julia and Ricky are acting very out-of-character.

But I am worried for the supporting characters. Together with Karkinnen, Davenport later adopted Letty, a 14-year old whose mother was killed.
