“Women Empowerment Through Political Participation: Issues & Challenges” Essay

Despite recent advances, women trail men in political participation, especially in developing countries where the long-term economic benefits from empowering women politically have not been well-researched. Still there is a need to record data at a more micro level so that women who only act as a proxy can be identified.

Women Leaders In India: The Role Of Indian Women In Politics

Recognition is dawning that women are indeed becoming a political force, both nationally and internationally. Second, gender gaps in political preferences often go hand in hand with gender gaps in political participation. Women have held the posts of president and prime minister in India, as well as chief ministers of various states.

The Political Participation of Women

In Satna district, for instance, the Gram Sudhar Samiti, an NGO serve almost as a parallel support. Due to the aggressive and competitive nature of politics, the belief is that participation in elected office requires masculine traits. Typical of India, it contains contradictions.

Measurement of Decision-making Initiatives: The quantitative data of political participation of women at local level is available but the qualitative data on the aspects of their active participation including the utilization of the decision-making functionality provided to them is not being quantified

properly. It has social, political, economic, cultural dimensions. This is needed to promote and enhance their leadership qualities and self-confidence.

The persistent gender gap in political participation in India

It is interesting that Indian women leaders attained a clear leadership position only after they set up their own parties Mayawati, Jayalalitha, Mamata Banerjee and through the support of their husband or family or dynasty rule Sonia Gandhi, Vasundhara Raje Scindia, Mehbooba Mufti, Shiela Dixit, Rabri Devi. In 2011, the Human Development Index score for the country was 0. All changed with the advent of Gandhi who converted the freedom struggle into a mass movement involving all sections of society.

The persistent gender gap in political participation in India

In short, women's participation as political actors has improved but their grip over power structure, at least at the party level, has not been impressive. On the other hand, the Congress support base among women is more balanced across social groups.

Women Empowerment in India: An In

This is due to poor economic condition and the low literacy rate. Our country will be unable to have a competitive edge over others until and unless the status and role of women is improved.
