During the post-apartheid period, protests about local government performance have been frequent and widespread ;. Justice Ishmael Mahomed provided a tentative answer to these question when he stated in S v Makwanyane, that the Constitution: retains from the past only what is defensible and represents a decisive break from, and a ringing rejection of, that part of the past which is disgracefully racist, authoritarian, insular, and repressive and a vigorous identification of and commitment to a democratic, universalistic, caring and aspirationally egalitarian ethos, expressly articulated in the Constitution.

The culturally diverse USA seems to provide an attractive model for many people in the New South Africa.

Introduction to Psychological Assessment in the South African Context

Much of the latter has been done through movements of Black Consciousness and Black Theology but little has been achieved in deconstructing much of the attitudinal arrogance and cultural superiority amongst White people. We are a patchwork quilt of different traditions and value systems sometimes interweaving and interlinking us, sometimes bounding us off from one another as separate groupings. Enthusiasts somewhat mistakenly believe that people have a cultural heritage to which they wish to return in their expression of faith.

Description of the South African Context
