The XIth edition, will like the previous editions, serve as a textbook and reference work to facilitate the task of teachers and students of comparative labour law and industrial relations.

Comparative labour law and industrial relations in industrialized market economies, 9th ed.

Although each industrialised country has its own particular traditions and pressures to deal with in the world of work, this study finds evidence everywhere of intense change as well as persistent continuity. The Law of Strikes and Lockouts - A. The second part concerns international actors, like the International Employer s Organisations and the International Trade Union Movement, as well as Human Resources Management.

The law of strikes and lockouts — Tilburg University Research Portal

Author: Roger Blanpain Publisher: Kluwer Law International ISBN: UCSD:31822034614479 Category: Law Page: 776 View: 683
Comparativism is no longer a purely academic exercise but has increasingly become an urgent necessity for industrial relations and legal practitioners due To The growth of multinational enterprises And The impact of international and regional organizations aspiring to harmonize rules. The growing need for comprehensive, up-to-date and readily available information on labour law and industrial relations in different countries led to the publication of the International Encyclopaedia for Labour Law and Industrial Relations, in which more than 70 international and national monographs have thus far been published.
