Skin Game

. Skin Game has a heist plot that runs along the line of most heist stories but what strongly differentiates this one is Jim Butcher.

The Skin

And not just Butters, Nicky could have twisted the oath in a way that would force Dresden to choose between his friends and obeying the oath where Dresden would obviously choose his friends but would then die for his choice. He then visits Karrin in the hospital and the two share a passionate kiss and agree to try an actual relationship. Reading this book I was brought to tears no less than 3 times.

Skin in the game (phrase)

My actual rating for the series is 2. Johnny Marcone is another fascinating rival for Harry but he's not the subject of this book. On the way out, Dresden activates the Gate of Ice to crush the pursuing Genoskwa.

THE SKIN DEEP store

That's a snippet from an interview with the guy which you can find here: Anyway, here's what the book's about: Since Harry was forced to take the mantle of Winter Knight; he's been subjugated by Mab's wishes and intentions. You gotta be if you're going to dedicate your life to a demonic cult and allow your tongue to be severed. But this story was tighter than super glue on a bullet wound.
