### Guidance Documents

The accompanying Basis for Conclusions explains the rationale behind the more significant changes made in the final version of the Red Book 2017. The process is focused on agreeing the parameters, followed by gateway meetings tied to milestones for the event.

### Document downloads

Dilapidations in England and Wales, 7th edition, is effective from 1 December 2016. This document is no longer current but can be referred to as information. The supplementary guidance note, which published in 1998, complements and updates the Guidance note on the 1995 Agricultural Tenancies Act and should be read in conjunction with it.

### 12 ways to improve how you conduct audience and visitor feedback

The proliferation of websites that use maps, images and addresses is a clear indication that GI has become part of the norm for many people.

### Guidance Documents

This document is no longer current but can be referred to as information. Even though specific procedures, standards and methodologies are not in place, it is widely recognised and accepted that the RICS Red Book must be adopted when undertaking written valuations. If you have trouble accessing it please email library@rics.org.

### Periodic Inspection and Testing: What Are The Key Principles?

A small questionnaire is easier to write on legibly. It deals with the preparations for, and conduct of, the auction, including acceptance and agreement of instructions; pre-auction work; the auction itself; post-auction procedures; complaints handling and disputes resolution; and legal responsibilities.

### 12 ways to improve how you conduct audience and visitor feedback

It therefore covers property that is a new construction, a conversion or that results from a comprehensive renovation. Then things can really get interesting Adrienne Pye, associate, Try consultation groups instead of focus groups: I agree that focus groups can be a useful part of the mix, but I personally prefer to use consultation groups — there are usually more people, with more varied opinions and they don't feel they are being researched. If 50% are men, and 40% are aged 20 to 50, and 30% are alone, then  $50\% \times 40\% \times 30\% = 6\%$  or 6% of the interviews should be with men aged 20 to 50 who are alone.
