Industrial design rights in the European Union

In considering European champions, the European Political Studies Centre 2019 noted that, in the digital economy, market value no longer corresponds merely to physical assets or employment numbers but rather to intangible assets such as data, online user-base, intangible property software, design, patents, business secrets and other ingredients that are key to modern-day success. As Commissioner Vestager noted, small and medium sized companies which provide specialised products or services could qualify, where they lead in their niche markets — especially if they successfully export outside the EU.

EU climate action and the European Green Deal

This number is not statistically different and is actually smaller than the 12.

The European Commission in EU Defense Industrial Policy

The Commission has imposed remedies on 60 mergers as a condition of clearance at Phase 2. Examples of companies which saw their transactions approved include KLM with its acquisition of Martinair ; Bayer, with its acquisition of Monsanto; or Gemalto and Thales.

General principles of EU industrial policy

As required by that Directive, the has conducted research on the question, which found that spare parts such as wings and bumpers were 6. Asia's Next Giant: South Korea and Late Industrialization.

General principles of EU industrial policy

This requires EU projects to be as attractive as possible for member states. In addition, the Investment Plan for Europe and the European Fund for Strategic Investments EFSI aim to mobilise at least EUR 500 billion in private and public investment by 2020. Export bans on arm sales by individual countries are less effective than those done in unity.

Innovation policy

Many of these domestic policy choices, however, are now seen as detrimental to free trade and are hence limited by various international agreements such as or.

The European Commission in EU Defense Industrial Policy

This could be a supervisory body, controlled by itself or the high representative for foreign affairs and security policy, to report violations and to refer member states to the European Court of Justice. It should be noted that an interim evaluation of Horizon 2020 is a mandatory requirement of the. The European Commission will soon have a new , as announced by President-elect Ursula von der Leyen on September 10.
