The purpose of this appendix is to: 1 appraise the present use of water for municipal and industrial purposes in the Puget Sound Area; 2 determine the future water supply needs; and 3 present single-purpose means to meet these foreseeable short-and long-term needs. This report describes the expected needs of the Puget Sound Area's future population for water and related land resources projected to the year 2020 and presents a comprehensive plan for meeting these needs. Five transmission line options and several reactive options are presently being considered as possible solutions to the PSAFRP by the Transmission Team.
