Orlando Furioso: A New Verse Translation — Ludovico Ariosto

It is by far the easiest to read and understand. When Astolpho left Bradamant in the forest, he quickly rose in the air and passed rapidly over the

kingdoms of the world, Aragon, Navarre, Cadiz, Egypt, Morocco, Fez, over the sandy desert until he reached the kingdom of Nubia, whose king he rescued from the harpies by the sound of his magic horn. The poem, however, obeys no geography or rules but its own, as the story moves by whim from Japan to the Hebrides to the moon; it includes such imaginary creatures as the hippocriff and a sea monster called the orc.

Orlando furioso (TV Movie 1990)

Orlando sbaraglia i nemici e assicura la vittoria a re Carlo Magno. Sure, there are ample academic texts written about it, its importance to later literature is widely acknowledged, and I've read more than one reference to it in the works of other great authors, but the vast majority of readers have never even heard of Orlando Furioso.

Orlando furioso (Vivaldi, 1714)

Marpissa followed them and attacked Bradamant so fiercely that Rogero was forced to her rescue, and lifting his sword would have struck the maid had he not been stopped by a voice from a tomb near by. Set vaguely during the time of Charlemagne and the Saracen invasion of France, it really inhabits a mythic world full of errant knights, distressed damsels, wicked enchanters, marauding monsters and not a few female knights who are quite capable of being the rescuers rather than the rescued. Because of his hatred for Leo, he fought with the Bulgarians, and when their king fell he rallied their scattered troops and put the Greeks to flight.

Orlando furioso (Vivaldi, 1727)

Voltaire called it the equal of the , the , and Don Quixote combined. The days passed so gayly in her beautiful home that Rogero forgot the pagan cause, forgot his duty, forgot Bradamant, and was roused from his lethargy only by Melissa, to whom Bradamant had given the magic ring to

enable her to find and rescue her lover. Probably at that time he invented the flush lavatory toilet and installed one for Queen Elizabeth in her palace at Richmond, Surrey.

LibriVox

Though Ariosto's unusual work is full of prejudice and idealism, it is constantly shifting, so that now one side seems right, and now the other. The battle was fearful, and when both fell to the ground it was supposed that Mandricardo was the victor.

LibriVox

But Leo, who had admired his valor in battle and had longed to know him, rescued him, recovered his horse and armor, and by his generosity compelled Rogero to admire him as much as he had before hated him.

THE STORY OF THE ORLANDO FURIOSO

As for the plot, Orlando Furioso is a bit of a mess, making very little logical sense, and we are never really given any reason to care about the characters.

Orlando Furioso by Lodovico Ariosto

So it starts in media res, and not only that but it has many many characters and it doesn't stay with any character for very long. Though his work is defined by its philosophical view, this view is developed slowly and carefully.
